GUIDED MISSILES DIVISION

"THE GMD CONSULTANT PANEL"

1. Purpose:

This Panel was established in mid-1954 at the request of the DCI for the purpose of assisting in the preparation of the first comprehensive National Intelligence Estimate on Soviet Guided Missiles (NIE 11-6-54). The Panel is now sponsored by GMD/SI, and is convened periodically (approximately two to three times a year) for the purpose of providing advice and assistance in GMD's assessments and evaluations.

2. Composition:

3. General:

- (a) This Panel assists in evaluating Soviet guided missiles activities of critical concern to the US National Security. As such it is definitely in the public interest and within the assigned duties of CIA/OSI/GMD.
- (b) The Panel is used solely in an advisory capacity and all actions based thereon are taken by responsible Government officials.
- (c) All meetings are called and approved by Government officials, who set the agenda therefor.
- (d) The meetings are chaired by a Government official who has full control of the course and purpose of the meeting.
- (e) Minutes have not been kept; however, a memorandum for the record will be prepared by a responsible Government official on all future meetings.

(f) This Panel is not predominantly an "industry advisory committee" inasmuch as only one member, Mr. [redacted] is engaged fulltime in the guided missile industry.

25X1

(g) This is a continuing Panel; the next meeting will probably be convened in April 1959.

FUNDAMENTAL SCIENCE DIVISION/SI

The Fundamental Science Division employs the following panels,
in an indirect fashion, through external contracting mechanisms:

25X1

25X1

This panel evaluates

Soviet research and development in the field of [redacted] and
renders advice and conclusions as to the level of Soviet competence;
trends in the direction of their research; the existence of probable
classified areas, etc. The panel's conclusions are entirely sub-
stantive in nature and have nothing directly to do with US research,
its direction, personnel, procurement policies, etc.

25X1

- a. This panel functions in the public interest in connection with the performance of duties imposed by law.
- b. The function of the panel is solely advisory.
- c. Meetings of the panel are not arranged by government officials and government officials do not set the agenda.
We could hardly do this and at the same time hold the Contractor strictly to task in the performance of the contract.
- d. Meetings are not chaired by government officials.
They are at times conducted in the presence of government officials but the Contractor has control of the meeting.
- e. Minutes are not kept except insofar as scientific evaluations are made and conclusions reached. The minutes are not certified as accurate by a government official.

Under this task order the Contractor is charged with carrying out an evaluative study on all aspects of the environment of the Soviet scientist. In performing this and other research tasks (for other sponsors) the Contractor employs a Research Advisory Board, composed of [redacted]

25X1

While this Board has considerable influence on the research efforts going into the study and on the conclusions drawn, it has no direct relationship with the Agency. No member of OSI is associated with this Board in any of its deliberations.

- a. This panel functions in the public interest in connection with the performance of duties imposed by law.
- b. The function of the panel is solely advisory.
- c. Meetings of the panel are not arranged by government officials and government officials do not set the agenda. We could hardly do this and at the same time hold the Contractor strictly to task in the performance of the contract.
- d. Meetings are not chaired by government officials. No government official is present during the deliberations.
- e. We have no knowledge as to how this panel operates in the matter of keeping minutes. No government official is in a position to certify the minutes.

ELECTRONICS DIVISION

This Division utilized the services of an ad-hoc group in November 1958 for advice and recommendation on Soviet cybernetics. This group was not established as an ad-hoc committee but might come under the referenced definition. Its members were as follows:

25X1

To our knowledge, the criteria set forth in paragraph 3 a through e were met in the use of this group. That is,

- a. The Director of Central Intelligence approved the utilization of this group in connection with the performance of duties imposed by law.
- b. The function of the group was purely advisory.
- c. The meeting was approved by Government officials and the agenda set by these same officials.

d. The meeting was chaired by Government officials who had full control of the meeting.

e. A full record of the meeting has been kept and is presently available.

This group served in a special ad-hoc advisory capacity, and there is no intention on the part of the convening authority to reconvene the group at a future date.

To our knowledge, no other advisory panel or group, comprising non-Government personnel, is used by this Division.
